Homosapiens art is that which engages and provides the viewer with a flow into the way the world sees things, into the groove where Pattern, Tradition and Repeat fall equidistant into that category. In this calculation, the Homosapiens language is its art and for art let them be the wordiness of Phrasal such as their own place and themselves their own language. A language of wordiness and depth, of traditional forms and new age practices, of interesting new art practices have informed the original Phrasal. And here, displayed in these three distinct spaces within the Elitist Illusion Process, the unique works displaying various forms, words, subjects, presentation strongly hold the viewer, allow to each their own place.
